

# HALL PARK PUBLIC ART MAP

PATRICIA B. MEADOWS

VIRGINIA SHORE

## Craig & Kathryn Hall

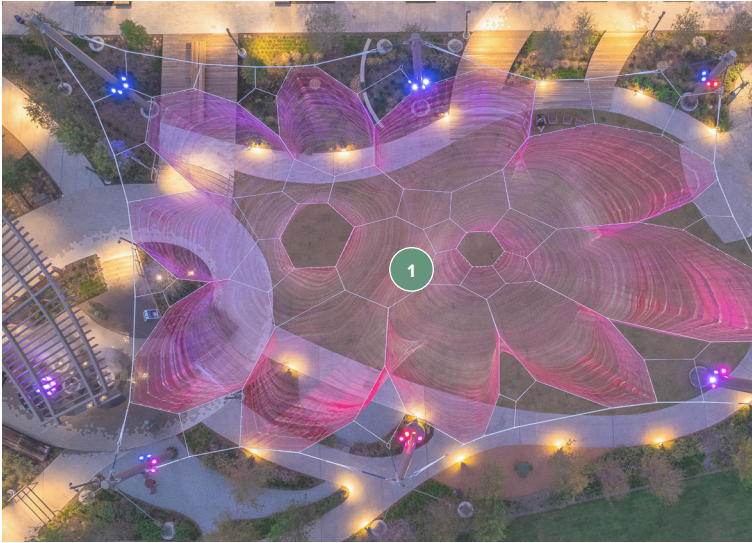

Craig Hall's appreciation for the arts began at a very early age. As a teenager, Hall began purchasing art and today, his collection is comprised of hundreds of paintings, sculptures and historically significant photographs by established and emerging artists from around the world.

Craig's wife Kathryn, the former U.S. Ambassador to Austria, shares this love for culture and the arts. While serving in Vienna and throughout their travels, Craig and Kathryn have added to their extensive collection with pieces from Australia, Central Europe, Africa and Asia. Art continues to be an integral component of the Halls' business and personal lives.

## Art Curators

**Patricia B. Meadows** served as the art curator at HALL Park for over 20 years. Meadows worked closely with architects, designers and landscape consultants, and is passionate about contemporary art produced by professional Texas artists.

**Virginia Shore** is a curator, director and advisor, with extensive expertise in contemporary art in all media. Shore has curated more than 200 international exhibitions for public and private collections and has overseen dozens of site-specific commissions. She recently worked with HALL Group to curate a high-profile art collection located in the new development, including HALL Park Hotel, The Monarch, and The Tower at HALL Park.

## *Kaleidoscope Park*

Serving as a permanent piece in the City of Frisco's public art collection is a captivating installation titled *Butterfly Rest Stop*, from world-renowned American sculptor and fiber artist Janet Echelman. The pendulous piece hangs over a section of the park and depicts milkweed flowers - a key nutrient to the monarch butterfly's survival and an homage to Frisco's prominence as a corridor for the monarch butterfly migration.

Janet Echelman

# Texas Sculpture Garden

A four-acre tract of land at the entrance to HALL Park was reserved as a special tribute to Texas artists and their work. Designed with lakes, water features, native landscaping and walking trails, the outdoor portion of the Texas Sculpture Garden surrounds the lake just outside the 6801 Gaylord Parkway building. The collection continues inside the building's lobby.

1. **4 Ravens, Nevermore #1**  
Joe Barrington, 2000
2. **Saturina - La Rocca**  
Alice Bateman, 1996
